DTaP	Dose 1												
Hib	Dose 1												
Pneumococcal	Dose 1												
Polio	Dose 1												
COVID-19	At least 1 dose of updated (2023-2024 Formula) COVID-19 vaccine												
Influenza/Flu	Every year. Two doses for some children												
MMR	Dose 1												
Chickenpox	Dose 1												
Hepatitis A	2 doses separated by 6 months												

KEY

- ALL children should be immunized at this age.
- SOME children should get this dose of vaccine or preventive antibody at this age.

Talk to your child's health care provider for more guidance if:

1. Your child has any medical condition that puts them at higher risk for infection.
2. Your child is traveling outside the United States.
3. Your child misses a vaccine recommended for their age.
